WHO WE ARE

AGF Business Consulting delivers professional consulting services to small and medium size businesses and to the federal government, state and local municipalities. We offer fast, reliable, immediately productive, and experienced resources from multiple disciplines to reduce cost and increase efficiency and ensure customer satisfaction. AGF helps business owners eliminate bottlenecks and increase efficiency without high turnover or excessive costs. AGF Business Consulting understand the problems small business owners have to deal with every day: budgets are tight, resources are limited, and a powerful business plan or strategic plan isn't worth much if it isn't implemented. Having clarity of purpose and robust processes are the keys to any profitable organization. AGF Business Consulting benefits your business by increasing profits, aligning your resources, eliminating inefficiencies and synchronizing your systems and processes. With extensive experience in business consulting, expense reduction and strategic planning, AGF have developed its innovative 5 step framework that simplifies the strategic planning process. Our framework cuts down the planning process time by 80%. Through our advanced understanding of industry "tried-and-tested" analytical tools, we have developed a practical approach to developing business strategic plans that are meaningful, realistic and achievable.

Our approach guides the strategic planning process, eliminating the need for extensive and costly research and analysis. Our mission is to empower businesses of all sizes, and across any industry, allowing them to grow and unlock their full potential through our expert business consulting services.

WHAT WE DO

30 Day SWOT Strategy

First step is a SWOT analysis including Porters Five Forces and PESTEL Analysis. Creating a Strategic plan. Next we review greatest strengths & discuss how to capitalize on those strengths. (implement proven strategies). Review the weaknesses that cause the most competitive disadvantage or yield the most competitive liability. Eliminate weaknesses by implementing proving processes and systems. (Highlight areas of concern. Prioritize issues on business impact.) Step by step methodical approach breaking down various problems into manageable units, identifying the problems that are causing the greatest financial impact. Result increased profits and revenue. Direction and accountability.

- We evaluate your business internal and external business environments in our effortless five step process, developed by in-depth knowledge of experienced business owners, successful managers, strategic planning experts and leading CEOs.
- We enable the creation of calculated strategies to meet your company objectives from transferable and easy to understand principles. You can choose relevant strategies from our database of pre-input strategies that are relevant to your internal and external environment and consistent with your business objectives and vision.
- We aid the development of specific and realistic strategic plans by including the flexibility in our planning process and software to add impact statements, factors and strategies relevant to any industry or business. While having the ability to select from generic principles and concepts; you can include your own principles and concepts.
